

Back
When
I
was a
girl,
I had a
Tumblr

A sacred,
life-changing
awful
swirl
of images
+ Fandoms,
new passions
and cringe
to unveil

All I was
shown,
it was so
random,
the
algorithm
predicted
me with
full abandon

It... knew
me so
well?

It was
here, on

this platform

I found a
stage to
rebel

It was
here that

a child
of the Corn

was exposed
to fanfics

and eating

disorders

& Superwholock

and porn

It was
everything
and
overwhelming
part about
part divine
but more than
anything it was
a sign of
the times (2014)

There were so many
impacts, there's so
much to say.

I But
t above
a all
c else
it made
me
GAY!
