Interviewer Number

June 1995

Dear Respondent,

Our nurse interviewer has arranged to interview you at _____ on _____

We are sending you two short booklets which we would ask you to complete before the nurse arrives to interview you. One is called “Feelings and opinions”, the other is the “Diet questionnaire”. Together they shouldn’t take more than 40 minutes to one hour to fill in.

We have tried to make them as simple as possible. We have given instructions as to how to fill in each part and where possible, we have given examples. If there is anything which isn’t clear, leave that part and ask the nurse about it when she visits you.

Notice that part 6 of the “Feelings and opinions” booklet only gets filled in if you currently have a paid job (full or part time), while the final part, the General Health Questionnaire should be left blank until the nurse visits you

Thank you for helping us by completing these booklets.
